# NSHC -21
CLEANING AUDIT

Cleaning and Efficacy are essential components of infection control in healthcare settings. Ensuring that environments meet the stringent cleanliness standards required for patient safety and care is crucial.

Mobiess' mobile auditing solution simplifies and streamlines managing Cleaning and Efficacy Audits. Our solution ensures compliance with regulation 12 of the Health and Social Care Act (2008) and NHS cleaning standards 2021.

Conduct detailed audits and manage reports effortlessly, promoting a high level of hygiene and efficacy in NHS settings without the burden of paperwork.

✓ Audit by room and by element

✓ Record cleanliness of patient assets and equipment

✓ Inspect environmental hygiene in hospitals

## AUDIT SCORING AND REPORTS

Utilising our platforms support for blended and unblended scores, automatically generate all the necessary reports such as star hygiene ratings, in order to verify that safe standards have been achieved.

Star ratings are a simple and effective means of providing meaningful information about quality, and reassurance about cleanliness.

Available for both Android and iOS our mobile audits and inspections platform enables estates, facilities and infection control teams to:

- ✓ Support the NHSC audit principle for healthcare cleanliness.

- ✓ Support for the Six Functional Risk Categories and mapping to functional areas.

- ✓ Support for Star Ratings providing an effective means of reassuring patients and the public of a building's cleanliness.

- ✓ Support for Blended and Unblended Scores

- ✓ Support for correct allocation and responsibility for cleaning - Nursing , Estates or Cleaning team.

- ✓ Direct allocation of remedial works to workforce, cleaning contractor or fully integrated into your CAFM system.

GO PAPERLESS

Streamline your inspection process, save time, organise your data, and eliminate paperwork, all whilst reducing costs.

PHOTOGRAPHS AND SKETCHES

Audits can be stored with photographic evidence and additional notes. Markup and annotate photos to highlight any issues captured during inspections.

REPORTING AND ANALYTICS

Produce reports, dashboards and analytics in real time including NSHC-21 and Star Hygiene ratings.

MANAGE CORRECTIVE ACTIONS

Generate and proactively manage corrective actions. Each corrective action can be logged, scheduled, and managed locally on the device or in the web-portal.

OFFLINE DATA CAPTURE

Mobiess Insight utilises offline data collection and secure storage if no 3G/4G/Wi-Fi network are available. No connection? No problem!

MANAGE COMPLIANCE

Assess, manage, and react quickly to risks and achieve compliance while reducing administration costs.
